Ungh!

Cover me in blood - paint me crimson red- just like the dead

Cover me in blood - drench me in gore -from your open sores

Cover me in blood - cover me in blood - cover me in blood - cover me

My blade cuts deep so succulent sweet

You'll bleed for me

The way that you writhe under the knife

You're such a tease

Ohhh!

The splatter pattern you left on the walls when I crushed your skull

The way your brains oozed & dripped down upon the floor

Ungh!

Cover me in blood - paint me crimson red - just like the dead

Cover me in blood - drench me in gore - from your open sores

Cover me in blood - cover me in blood - cover me in blood - cover me

You'll bleed for me

The way that you writhe under the knife

You're such a tease
