As I make my move to the floor  
There comes a feeling like I never felt before  
I am no longer your prey  
I'm the predator  
With every move that I make  
I keep my hunting eyes on the game  
And when my target is finally found  
Now it's time to play

Only one condition  
Before I move  
It's absolute submission  
No safety use  
I won't need no permission  
I break the rules  
So you better keep your position  
I'm in hot pursuit  
My mission is you

No need to talk when you caught  
Surrender your thoughts to withdraw  
My artist are to satisfy  
You won't have to beg for more  
And you'll be wrapped around me  
Trapped around me, feeling that  
That you can't live without me, die without me  
Wanna break every game I remember  
There's one thing you should know

Only one condition  
Before I move  
It's absolute submission  
No safety use  
I won't need no permission  
I break the rules  
So you better keep your position  
I'm in hot pursuit  
My mission is you

Gotta get a bit of that  
Where I'm from the right

Guess I can deliver that, I know  
Get a bit of that  
While you turn your back  
Got you in a trap  
Don't look back

Get a bit of that  
Where I'm from the right  
Guess I can deliver that, I know  
Get a bit of that  
While you turn your back  
Got you in a trap  
Don't look back, back, back, back

Only, only, only one condition  
Before I move  
It's absolute submission  
No safety use  
I won't need no permission  
I break the rules  
So you better keep your position  
I'm in hot pursuit

Only, only one condition  
Before I move  
It's absolute submission  
No safety use  
I won't need no permission  
I break the rules  
So you better keep your position  
I'm in hot pursuit  
My mission is you
