It's getting harder and harder to see you leave  
Let life field falls between us  
In the middle of pressure and stress  
Innocently we're blind to learn  
We're drifting further and further  
Into the separate sides when no one's trying  
And we're unaware of where this will lead  
But I know that something's got to give

And we're both sit in silence  
Stuck between what's the meaning  
Truth and desire  
Before you get up and go,  
You got to know

If there's a way round, I'll find it  
If there's a mountain, I'll climb it  
While I'm still breathing  
Nothing can keep me away  
And where I need patience, I'll find it  
And if time forgets out, we'll remind it  
If there's no way round  
I'll build the world that I need  
Count on me

Count on me  
Count on me, mmm

It's getting steeper and steeper  
And I fall deeper into this hole between us  
If it takes brick by brick  
Don't make it stick  
Our foundation will be built on love

And we're both sit in silence  
Stuck between what's the meaning  
Truth and desire  
Before you get up and go,  
You got to know

If there's a way round, I'll find it

If there's a mountain, I'll climb it  
While I'm still breathing  
Nothing can keep me away  
And where I need patience, I'll find it  
And if time forgets out, we'll remind it  
If there's no way round  
I'll build the world that I need  
Count on me

Count on every smile we share  
And we can count on knowing I'll be there  
Even though we're in the middle of nowhere  
There's nothing that can be repaired

If there's a way round, I'll find it  
If there's a mountain, I'll climb it  
While I'm still breathing  
Nothing can keep me away  
And where I need patience, I'll find it  
And if time forgets out, we'll remind it  
If there's no way round  
I'll build the world that I need  
Count on me

If there's a way round, I'll find it  
If there's a mountain, I'll climb it  
While I'm still breathing  
Nothing can keep me away  
And where I need patience, I'll find it  
And if time forgets out, we'll remind it  
If there's no way round  
I'll build the world that I need  
Count on me
