Only the rain will guide his way
through the black of the night
the rain, only friend

With a lonesome tear drop on his cheek
he's leaving the planet earth

EXIT THE LAKE SUICIDE
TONIGHT MY LIFE IS THROUGH
TONIGHT I'M FREEZING BLUE

They never understood this pain
which he had inside
life itself had died

No more there will be his kind
in the black of the night
his kind, blood drops they cry

He had his ways, he had his times
through the black of the life
his life, ain't nothing worthwhile

He had passed over pain
flying through the endless night
he had died, oh my god I have died

EXIT, EXIT
THE LAKE SUICIDE
LAKE SUICIDE
