Verse 1

I'm sitting here behind the tree
Watching the people whatching me
Meanwhile I lose my breath
And everytime I'm feeling down
The best thing is leaving now
Would you stop me here?

Chorus

I try to escape my fate
They don't let me go
Why I can't say what I
Think right now?

Verse 2

You walking around, look at me
Whatching this person behind the tree
I want to escape my fate
The reason why
The reason I just hate to say goodbye
Humanity makes me sick

Chorus

I try to escape my fate
They don't let me go
Why I can't say what I
Think right now?
