Wake up early Sunday morning with a monkey on my back.

I've got an awful headache. Lord, I'm feeling pretty sick.

The Girl left me last night. Tell me what can I do.

I've gotta go outside. I have to do some booze.

Love is a ghost. Death is a killer.

Love is a ghost, but death is a star.

Sister Love & Brother Death burning fire in my head.

The Devil's calling me again creeping poison in my veins.

Late at Night watching TV blood and pain and misery.

Terror auf der ganzen Welt - Vater Tod, der grosse Held.

Love is a ghost. Death is a killer.

Love is a ghost, but death is a star.

Love is a ghost, love is a ghost, love is a ghost, but death is a star
