Your name is on everything you do, well, so is mine  
Your life made a turn for you and gave you time

And through your uneven footsteps you found  
tolerance and cleanliness  
And I found you

Your name appears at such an alarming rate in this  
town I can't escape it  
[I'm sure you agree with that statement]

You sat around and borrowed money  
I offered you a job trying to be funny  
It worked out, but only at first

Your face is a minor detail  
Elephants as big as whales  
Recreational vehicles and mutual friends

Who's to blame? Lack of power?  
And I don't mind that you're not here  
And who's to blame? The believer?  
The eye in the sky is watching your every single move

We stayed up at night much too late  
Talking crap about The Secret Handshake  
Talking about our life long mistakes  
If only they knew, if only they knew, if only they knew

Talking bad about the kids from Denton  
Disagreeing about sexual attention  
You've been with more girls than I have  
Both your faces have, both your faces have, both your  
faces have

I brought you to Los Angeles to do nothing  
We both flew first class, and despite LA's boringness,  
While I recorded you found plenty to do, plenty to do,  
plenty to do

Your face is as big as a whale

Elephants are a minor detail  
Recreational vehicles and appointed tasks

Who's to blame? Lack of power?  
And I don't mind that you're not here  
And who's to blame? The believer?  
The eye in the sky is watching your every single move

We've both got better things to do [x25]

Your name is on everything you do  
Acting like you have something to prove
