Hello dear, my Holy cure,
I hope this letter sends this better
Cause I'm here and your so pure
You make me feel special
My untouched angel
And I just relive in my mind
The times of ours like bullet scars
And I keep on writting you
so patiently but you don't answer me. So -

I'll make your world come falling down
Down on me, down on me
I'll make your world come crashing down
Til you drown, drown on me

In the end we could still pretend.
I'll be your savior, your dream creator
And then we could begin
I'll forward heaven, i got no one else
Cause I want you all alone
But you're cold as steel and it makes me feel
But time keeps on screaming
I can't go on like this, so lets just dismiss this

I'll make your world come falling down
Down on me, down on me
I'll make your world come crashing down
Til you drown, drown on me

Feel my mental cross you make me bear
Seal my fate and I'm everywhere (everywhere)

You can't run away
I'm all around you
You can't breath without me
I can't live without you

You can't run away
I'm all around you
You can't breath without me
I can't live without you
