November 21

And there's a curse in these verses

I'm laughing when I cry

Every word I hold is true

We're too in touch to fake this

I got the call

Are we going to

Give it away

Give it away

And every night

Ends with I love you

And every night

I wait for you

Give it away

Give it away

She's got that red hair

With her lipstick

I'm always caught

Making silly little head tricks

These photographs remind me what's been said

Let's just forget about it

Let's go play

I got the call

Are we going to

Give it away

Give it away

And every night

Ends with I love you

And every night

I wait for you

We don't have to

Have to go home

We don't have to

Have to go home

We don't have to

Have to go home

We don't have to

Have to go home

I got the call

Are we going to

Give it away

Give it away

And every night  
Ends with I love you  
And every night  
I wait for you
