Live fast, die young

Tomorrow ain't a promise, I know that!
So I face each day, as if I was the last!
Ready for good, cause I'm used to the bad
I give all I got
I do my best to keep myself on track
Not afraid of death, so I live fast!

Life, there's only one!
Live it good, or let it burn
Living on the edge...

Some say I'm good, others find it bad
Should I really care?
Should I stop and think instead
Live fast die young!
One life, one chance
And let it go
Live fast, die young!
