Visit "[Hold Me](#)" on MotoLyrics.com

This is my rifle, my only solution
I've made this failure and conclusion
Is this the whole world I try to see?
Or is it pleasure for you and me?

You spit on me, I try it, too
You hung me up, I try it, too
You start to cry, I'd try it, too
You beg for me, this can't be true

Are you in the air?
Stay by me
Can't you hear?
Can't you see?

Orthodox and religious guys
Blasphemous cuts and empty souls
All my fear, all my lies
All these hate, all these fools

You feel my heart, my Infernos, too
You create such things I wanted to do
You have no fear, I'd have it, too
You beg for me, this can't be true

Cause it's the day, the day I die
You hold me down, please don't cry

Just say you have enough, please be mean
I'm not so well, you cum my cream
I want to die when I cry
You have to die, when I cry

Cause it's the day, the day I die
You hold me down, please don't cry
