Throw away your troubles and leave your blues behind Free your frustrations and have a jamming good time Come on and clap your hands now and let yourself unwind

Everybody together in a universal mind Get off of that ego into a higher place Check out my music dig my magic space

The way I like it, love to see you doing your thing The way I like it, makes me want to sing

The way I like it, love to see you doing your thing The way I like it, makes me want to sing
