She's the kind of girl,
Gets me singing a lullaby
When I wasn't with your babe
I can't even focus with my friends
Beautiful green eyes, staring at me
Ya, ya, ya

You are so beautiful girl,
You got, going on, going on,
So, oh, oh, you are so fantastic, your classic
Won't you be my barbie girl

(Won't you be my girl so I can take you all over all over
the world)
Won't you be my girl
(Won't you be my girl so I can take you all over all over
the world)
I wanna be

Your lips
Your lips so soft so soft
It shines, it shines like the stars from above

Your eyes, your eyes so sparkling like diamonds
You, you, you, got me hooked on you (on you)

You got me hooked on you
She's a kind of girl
She makes me fana-fantasize!
Time stops when she passes me by!

I can't say word to her
Until I go home and start imagining
She as my barbie girl
So I say
Won't you be my girl so I can take you all over all over
the world
Won't you be my girl
(Won't you be my girl so I can take you all over all over
the world)
I wanna be

Your lips
Your lips so soft so soft
It shines, it shines like the stars from above
Your eyes, your eyes so sparkling like diamonds
You, you, you, got me hooked on you (on you)
You got me hooked on you

You got me hooked on you

Your lips
Your lips so soft so soft
It shines, it shines like the stars from above
Your eyes, your eyes so sparkling like diamonds
You, you, you, got me hooked on you (on you)
You, you, you, got me hooked on you (on you)
You got me hooked on you

Your lips
Your lips so soft so soft
It shines, it shines like the stars from above
Your eyes, your eyes so sparkling like diamonds
You, you, you, got me hooked on you (on you)
