As the gold of the sky lighten the green of the hills  
Distinctly floated the tinkle of a bell  
Of those who dwell in the Abyss  
Across the clear mountain air

Tales of dancing lights in the dark of the moon

Misty dreams of shrill sounds  
Sunless secrets and picture sights

The shadowy moving forms into the wide plain  
Airy beings in white under the fullmoon  
Ancient and solemn ceremonial dance  
Fantastic formations beyond the pale of nature

Misty dreams of shrill sounds  
Sunless secrets and picture sights
