I'm the god of nothingness to you  
Face scarred by tear marks  
Expressionless fears  
Hiding in the burrows of pain  
Ostrich approach to life  
Sad times will come and go  
And happiness will pass  
Cold solitude inside  
A spirit numb to senses  
Devoid of heart - Devoid of soul  
No meaning to now  
Had no feeling then  
A vision so blank  
Dying colours kill  
A truth of fear  
A truth so clear  
The truth so clear  
A truth so void  
Like a ragged doll being pulled  
Between two opposing force  
Cannot feel a thing  
No guilt no conscience  
A superficial Layer so numb  
A sense of apathy  
All the lights are downed  
And the void expands  
Slowly consuming  
Itself to obscurity  
Dulling self realization  
Indifference claws it's mark  
A phlegm of insanity  
You are devoid of emotions  
Devoid of emotions  
Devoid of emotions  
Devoid of emotions  
The god of nothingness to you
