Stand up tall, I take my place, my conscience yields
Number for a name
Survive your test, transform my soul, machine of a man
Can feel nono more
When, when will they set me free
What, what am I fighting for
Return us home, a world of change, I serve you well
Remove thisthis pain

Chorus

When, when will they set me free
What, what am I fighting for
When, when does it come to an end
What, what if I, I dont defendshot

Save me now, break me down
Tear me up, lose my life, betray my innocence
Stand up tall, I take my place, my conscience yields
Number for a name

Repeat Chorus

Am I a man nowInnocence
Save meow, break me down
Tear me up, lose my life, betray my innocence
Innocence, Innocence, Innocent
