Can't we all get a little bit of love, she strong out  
She's all night drug, daddy takes off his butt everytime  
that she acts up  
Beats her down and leaves her, afraid to get back up  
Prolly won't say a word, cause she knows what he'll do  
to her  
Said she was 5 when she knew of hurt is like who do  
you ,to  
Half of the world can't relate on what do you do when  
you're abusing  
You cry on a daily basis and nobody cares  
Pick up the pain but you can't sedate it  
And sat down at the table can't even obtain a waitress  
no love  
Oh no, not at all, you should leave baby girl  
Whether you decide or I know all, can maybe we can  
come along  
The world, we got you, can't say it will be easy, but we  
got to  
Put through together, cause for you the let up  
Would be us taking a loss,  
So put em up, let's fight, and get ready for war  
You're not alone, you got the world  
You got everything you need  
You just gotta believe, love is right here, aha  
No more tears, I wanna see you smile  
You deserve to, aha,

Who are they, that say you aren't beautiful  
Who are they, that say you are ,in love  
In addition in the world, baby girl you are an angel  
Bet they wanna snapshot your heylo and photoshop it  
And tell they friends uncle manolo bought it  
You know, lies, lies and more lies  
Let us absorb those tears out of your poor eyes  
I say you are what they say you are only if you believe it  
Else, your reality, but can't stop you from dreaming  
So when you feel like cutting yourself and bleeding  
Close your eyes and remember that it's all a game  
That y'all been the nose bleeds the second you got  
court side seating  
I know, so be strong for me, be strong

For everybody that would rather not wake up the next  
time that they fall asleep  
Whoa, I see the love in your eyes  
Just be you, keep reaching for them stars  
Keep hope alive, everything is gonna be alright  
There you go, I'm signing off, it's Primo.
