Breaker breaker breaker one nine
Breaker one breaker one nine
Breaker breaker one nine

I'm being about this 100 proof
And I can't stop thinking about you
Speedometer reading 92
If I get pulled over I'm through
I'm hidroplaning from tha rain
Got me so turned up from tha shit you're sayin
You say you're standing in your hallway
Trying something new cause I'm taking too long and
you just can't wait
You tell me take one hand off tha wheel
So I can tell you how hard it is
I tell you wait for the visual
Open up your garage 'cause I'm pulling up

2 x chorus:

Break breaker breaker breaker break breaker one nine
I'm on my way when I get over there
I'ma put this in yo spine
Girl I told ya tha way u was talking on tha phone you
done got my shit on high
I'ma blow you mind, I'ma blow your mind

And now I'm feelin that I know you
But we just don't want to
Our sex is on the moon you blowing microphone in
every room
I like'em hood but that's expected but we both know girl
You kind of different
Your daddy and momma they both politicians
Wonder if they know how u take it in tha kitchen
I won't repeat it but I can't delete it
I can't take that chance cause you know I need it
Two hours late and I know you heated
Baby I'ma make that up when I break ya break her
break her off

Chorus x 2:

Break breaker breaker breaker break breaker one nine
I'm on my way when I get over there
I'ma put this in yo spine
Girl I told you tha way u was talking on tha phone you
done got my shit on high
I'ma blow you mind, I'ma blow your mind

See there what you done did girl
You know what I do so gone an take em off
Breaker breaker breaker
I know I had you waiting baby wait no more

See there what you done did girl
You know what I do so gone an take em off
Breaker breaker breaker
I know you tired of waiting baby wait no more

Chorus x 4:
Break breaker breaker breaker break breaker one nine
I'm on my way when I get over there
I'ma put this in yo spine
Girl I told you tha way u was talking on tha phone you
done got my shit on high
I'ma blow you mind, I'ma blow your mind
