Warning! Warning!  
You see baby, I won't ask if you feel me  
Cause you know I already know you feel me  
But before I take this a step further,  
we need to get some things straight  
You're ready?

First up there will be no closing your eyes  
Cause you need to see it all, no closing in your eyes  
And I'm telling you there will be no stopping permitted  
It won't be necessary, girl I promise it will be feeling  
that good (that good)  
That run and tell you girl,  
you can't believe what just took  
(just took) took place (took place) by the look on ya face

Pre-Chorus:  
And every single thing that you gonna tell her  
How last night a nigger took you to Heaven  
And made your body do things that you never never,  
ever ever, never ever

Chorus:  
Know it could go, know it could fly,  
know it could bend, know it could twist  
Let me make you a witness (make me a witness)  
I need a witness (said he need a witness, yeah)  
Bet you don't know that your body go  
higher than high, lower than low  
Let me make you a witness (make me a witness)  
I need a witness!

I said this boy said he feel me yes, I'm electric,  
said he need a witness that I know you..  
Keep my eyes opened, wanna see the next thing...  
Time to our sex!  
Get it from the back, yes this girl's elastic  
Tell you I'm a freak with chains...  
He can't even speak right, he's ecstatic  
But still he couldn't get...

Satisfaction, pleasure, don't know which one you need  
worst

Baby, you don't know how bad your body is dying of  
thirst.

But I'mma.... darling, I'mma make you flood  
And heat every spark with water from my love  
Shawty I promise when I finish ...

It won't be necessary, girl I promise it will be feeling  
...I wanna tell you girl, you can't believe just...

Pre-Chorus:

And every single thing that you gonna tell her  
How last night a nigger took you to Heaven  
And made your body do things that you  
never never, ever ever, never ever

Chorus:

Know it could go, know it could fly,  
know it could bend, know it could twist  
Let me make you a witness (let me make you a witness)  
I need a witness (said he need witness, yeah)  
Let your girl know that your body go (let me make you a  
witness)  
higher than high, lower than low  
Let me make you a witness (baby, baby)  
I need a witness!

I'mma witness!  
I'mma make you witness!

Chorus: (x2)

Know it could go, know it could fly,  
know it could bend, know it could twist  
Let me make you a witness (let me make you a witness)  
I need a witness (said she get a witness, yeah)  
Let your girl know that your body go  
higher than high, Lower than low  
Make you a witness (baby, baby)  
I need a witness!
