Diamond Dogs
"If I Ever Fall In Love With You"

I pushed my love too far
So many times
Got no excuses left
To hide behind

I tried my best
But the price was too high
I got no tears left
Still I wanna cry

If I should fall in love with you
You know what I have to do
I gotta leave it all
Before it breaks my heart into
If I ever fall in love with you

Bridges are burning now
There's no return
I'm just a foolish guy
So much to learn

I thought it was easy

But I fell down hard
Now I know what it's like
To carry a broken heart

And if I should fall in love with you
I know what I have to do
I gotta leave it all
Before it breaks my heart into
If I ever fall in love with you

If I should fall in love with you
You know what I have to do
I gotta leave it all
Before it breaks my heart into
If I ever fall in love with you

If I ever fall in love with you
