My hell is in my castle, I deny their souls. This is like
Vlad's executions, it's a tragic fate. Sintrass! The
dragon, keep their
Souls, their corpses. You are my executor, the end of
the torment... My caves are full of traitors, of
unconquered souls.
Your naivity is mine, you're my blind gardian. Sintrass!
I will slay you to feel their souls and yours. The work is
imperial,

Your son and his destiny. I invoke thee, dragon's and
nature's goddess. The strength to keep my throne. You
gave me the will
To ascend it, now I need your energy to reign... I hear
the sacred cry, yells of heaven. I fell my heart
pounding faster than before.
They die slowly with the princess' charmed voice.
