I never met another girl
That tastes like a plum
Quite the way you do
And though the kisses are fun
I feel my mouth going numb
And my lips turn blue
'Cuz you're as cold
And hard as ice
And I'm flesh and blood
I never thought
That a popsicle chick
Could taste so good
Baby do you like to mess around
Then baby we should make a mess
On the love express
When diamonds is in town
You say you might have fallen
For a guy like me
When you were 17

But if you're calling
My clothes and my lines immature
Babe what do you mean
'Cuz I'm all grown
And I've payed in full
The hi price of love
Whoever thought
That a girls dirty tricks
Would feel so good
Baby do you like to mess around
Then baby we should make a mess
On the love express
When diamonds is in town
Baby do you like to mess around
Baby do you like to mess around
Baby do you like to mess around
When Diamonds is in town
