She looks good swiss cheese put your head full of
holes
A pistol's sneaking tease no man can ignore
A quick lap round the track, man, she's keeping me
active

She looks good
The girl's attractive

She looks good chip beef such a miracle fray
Eyes slice through me when I call her name
Ain't no mystery a matter of fact is

She looks good
The girl's attractive

Lord I can't resist her please tie me down

Mixed drinks always need a glass as full as is tall
The heads drip but there's sweet rubbing alcohol
A hook ball and chain and the girl got you captive

She looks good
The girl's attractive

Lord I can't contain myself please tie me down
