You got a lot of character
The way that you carry yourself
The way you talk to me
You was tangible, so respectful, unforgettable

Baby, I love the way you be wit me
So why you coming at me about these material things
When I've never asked you for nothing
I don't care about what you be having

Boy, stop it 'cause I could care less what you got in
your pocket
Even though I must admit it's hot when you stop
And the wheels keep spinning
That's not the reason why I'm wit it

It don't fade, me I'm happy that you out there making
your money
And, yeah, I like it we in the drop
And the top down wind be blowing
That's not the reason why I'm wit it

You got good manners, you always be to yourself
You really impress me
So don't go messing up being silly 'cause
'Cause you got your trust

I understand you're doing good
But don't let that go to your head
'Cause I can do with it or I can do without it
And don't you ever get it twisted

Boy, stop it 'cause I could care less what you got in
your pocket
Even though I must admit it's hot when you stop
And the wheels keep spinning
That's not the reason why I'm wit it

It don't fade me, I'm happy that you out there making
your money
And, yeah, I like it we in the drop
And the top down wind be blowing

That's not the reason why I'm wit it

Boy, stop it 'cause I could care less what you got in
your pocket
Even though I must admit it's hot when you stop
And the wheels keep spinning
That's not the reason why I'm wit it

Why you tripping on the things you have
And the things you've got
I'm not tripping on where you live or the car that you
drive
You got your's and I've got mine, so don't you get to
trippin'

Boy, stop it 'cause I could care less what you got in
your pocket
Even though I must admit it's hot when you stop
And the wheels keep spinning
That's not the reason why I'm wit it

It don't fade me, I'm happy that you out there making
your money
And, yeah, I like it we in the drop
And the top down wind be blowing
That's not the reason why I'm wit it

Boy, stop it 'cause I could care less what you got in
your pocket
Even though I must admit it's hot when you stop
And the wheels keep spinning
Reason why I'm wit it

I'm happy that you out there making your money
When we in the drop and the top down
Even though I like it
Bit that ain't why I'm wit it, yeah
