"Show You My Love"

Visit "[Show You My Love](#)" on MotoLyrics.com

I know just what you need
Ooh, let me love you please
I wanna show you my love

And when I start it up
Ooh, you won't get enough
Just let me show you my love

Yes, I'm seein' you
And what you're goin' through
You deserve somethin' better

See, what I see you're doin'
I've come to the conclusion
That we should be together

I know just what you need
Ooh, let me love you please
I wanna show you my love

And when I start it up
Ooh, you won't get enough
Just let me show you my love

I really can't explain it
It's just a natural thing
For you to be a part of me

I wanna show you somethin'
Know just what you're wantin'
Baby, can't you see that I just wanna

I know just what you need
Ooh, let me love you please
I wanna show you my love

And when I start it up
Ooh, you won't get enough
Just let me show you my love

I know just what you need
Ooh, let me love you please

I wanna show you my love

And when I start it up
Ooh, you won't get enough
Just let me show you my love

Sometimes there is confusion
When you don't know how you really feel
But I have come to the conclusion
That what we have is real, oh

I know just, I know just, I know just what you need
Ooh, let me love you please
I wanna show you my love

And when I start it up
Ooh, you won't get enough
Just let me show you my love

I know just what you need
Ooh, let me love you please
I wanna show you my love

And when I start it up
Ooh, you won't get enough
Just let me show you my love

Ooh, I wanna show you
Wanna show you, wanna show you
Ooh, I wanna show you
Wanna show you my love

Ooh, I wanna show you
Wanna show you, wanna show you
Ooh, I wanna show you
Wanna show you my love

I know just what you need
Ooh, let me love you please
I wanna show you my love

And when I start it up
Ooh, you won't get enough
Just let me show you my love

I know just what you need
Ooh, let me love you please
I wanna show you my love

And when I start it up
Ooh, you won't get enough

Just let me show you my love
I know just what you need
