Chorus:

There'll be no tomorrow,
There's just Yesterday.
Ever since you left me,
Nothing's been the same.

Verse 1:

We made plans to spend life together,
We made plans to make me your wife.
We would do whatever we indever,
And now you've taken a part of my heart.

Bridge:

Heres today were's tomorrow with you

There'll be no tomorrow,
There's just Yesterday.
Ever since you left me,
Nothing's been the same.

There'll be no tomorrow,
There's just Yesterday.
Ever since you left me,
Nothing's been the same.

Verse 2:

No doubt about it,
I told you everything about this.
But there's somethings,
you just don't know about me.
I never told you bout the love,
That I feel for you.
Cause you can never find love,
In an hour or two.

Bridge: (Once)

There'll be no tomorrow,
There's just Yesterday.
Ever since you left me,
Nothing's been the same.

There'll be no tomorrow,
There's just Yesterday.
Ever since you left me,
Nothing's been the same.

Verse 3:

Yesterday has passed away,
Today is just here today.
Tomorrow seems so far away,
Without you here, here to stay
Yesterday has passed away,
Today is just here today.
Tomorrow seems so far away,
Without you here, here to stay

Tomorrow's almost here,
I have to live another day without you.

There'll be no tomorrow,
There's just Yesterday.
Ever since you left me,
Nothing's been the same.

There'll be no tomorrow,
There's just Yesterday.
Ever since you left me,
Nothing's been the same
