Word iz bond, word iz bond  
Word iz bond, word iz bond  
On and on, word iz bond  
Word iz bond, word iz bond  
On and on, word iz bond  
Word iz bond, word iz bond

On and on, word iz bond  
We be chillin' to the break of dawn and it's on  
On and on, word iz bond  
We be chillin' to the break of dawn and it's on

On and on, word iz bond  
We be chillin' to the break of dawn and it's on  
On and on, word iz bond  
We be chillin' to the break of dawn and it's on

Woke up this morning with chillin' on my head  
Didn't wanna wake my man, so instead I called my  
girlies  
Let's chill today, go out and play  
Get in the car and let's cruise around the way

While the lead track plays in the back so soothin'  
The system is pumpin', got the kids on the block  
bumpin'  
Just chillin' with my girls it's sumthin'  
Got more funk in the trunk and it's funk'in'

Me and the girls know the time before we enter  
The center of my path finder  
Flirtin' with the guys, groove with the girls  
No numbers just money or stay in your world

Crusin' to the homebase in Vegas where we're livin'  
The peace sign is up when we're ridin' through  
Passin', hey how you doin', this is how we do  
'Cause we keep it goin' on, word iz bond

On and on, word iz bond  
We be chillin' to the break of dawn and it's on  
On and on, word iz bond

We be chillin' to the break of dawn and it's on

On and on, word iz bond

We be chillin' to the break of dawn and it's on

On and on, word iz bond

We be chillin' to the break of dawn and it's on

We be chillin' with the hottest Phat Farm fashion

Donna Karan, that's the gear we be wearin'

Pullin' out a list to get me that and get me this

What I do when I chill with my crew

So just to get a shout to all my peeps on the street

We dedicate this song, on and on and on

To whom we've known so long

We gotta stay strong, word iz bond

I shine like diamonds on some straight Lariems

On the Benz glidin' through smoke foggy wind

Lay back in the Coupe and tellin' ya smellin' like weed

Who creeps up on the side of me, bumpin' all I need

Peep Dom P's in the bright pink and white rover

I'm pointin' to the nearest corner for shorty to pull it  
over

She cracked a smile, word iz bond I almost crashed

Then I blinked again and they was gone that fast, word  
iz bond

On and on, word iz bond

We be chillin' to the break of dawn and it's on

On and on, word iz bond

We be chillin' to the break of dawn and it's on

On and on, word iz bond

We be chillin' to the break of dawn and it's on

On and on, word iz bond

We be chillin' to the break of dawn and it's on

On and on, word iz bond

We be chillin' to the break of dawn and it's on

On and on, word iz bond

We be chillin' to the break of dawn and it's on

On and on, word iz bond

We be chillin' to the break of dawn and it's on
