Staring at a photograph
Of where we used to be
When the sky was bright
And crystal clear
And life was just a breeze, oh well
There's somethings taking you over

You burned all your bridges
And you left without a clue
And you wonder why these memories
Keeps staring back at you, oh well
Now don't look over you shoulder

Sing for life, sing for joy
Sing for every man and woman
Girl and boy
Sing a song, a simple melody
Sing out loud or just hum
Sing for moments in the past
And times to come
Sing for history and destiny
Won't you sing for me?

Standing at the station
And you don't know where to go
You're trying hard to hold on to
The world you used to know, oh well
Don't let it get to you baby

Sing for life, sing for joy
Sing for every man and woman
Girl and boy
Sing a song, a simple melody
Sing out loud or just hum
Sing for moments in the past
And times to come
Sing for history and destiny
Won't you sing for me?

Don't look back
Just keep moving on
Get your feel and walk

Into a different song
Don't care what they
Say just let the music play

Heeeey

Won't you sing for me?
Sing for me
Sing for me

Sing for life, sing for joy
Sing for every man and woman
Girl and boy
Sing a song, a simple melody
Sing out loud or just hum
Sing for moments in the past
And times to come
Sing for history and destiny
Won't you sing for me?

Sing for me
