Oh oh oh, oh oh oh
Oh oh oh come on I'll make you happy
Oh oh oh just me and you

Woke up this morning, the sky was blue
Today is the day I'm coming to you
I'm so excited it's been so long
Countin' the minutes since you've been gone

Here we go now (here we go now)
Here we go now (here we go now)
Here's a message to you

I'm a happy, happy girl
With a happy, happy smile
I can be your friend
If you stay and play a while
Happy, happy girl
With a happy, happy smile
I'll give you all my world
And make it last a while

Oh oh oh come on I'll make you happy
Oh oh oh what can we do?
Oh oh oh come on I'll make you happy
Oh oh oh just me and you

So can you imagine the way I feel?
Look at me jumping, it's so unreal
When we're together the whole world smiles
This is forever, the rest of our lives

Here we go now (here we go now)
Here we go now (here we go now)
Here's a message to you

I'm a happy, happy girl
With a happy, happy smile
I can be your friend
If you stay and play a while
Happy, happy girl
With a happy, happy smile

I'll give you all my world
And make it last a while

Oh oh oh come on I'll make you happy
Oh oh oh what can we do?
Oh oh oh come on I'll make you happy
Oh oh oh just me and you

When I see you looking, looking at me
I feel so happy, just you and me

I'm a happy, happy girl
With a happy, happy smile
I can be your friend
If you stay and play a while
Happy, happy girl
With a happy, happy smile
I'll give you all my world
And make it last a while

Oh oh oh come on I'll make you happy
Oh oh oh what can we do?
Oh oh oh come on I'll make you happy
Oh oh oh just me and you

When I see you looking, looking at me
I feel so happy, just you and me
