Wanna fly  
High above in the sky  
Looking all over the world  
People get ready now  
And I see  
Everything I wanna see  
Surrounding every part of me  
People get ready now

We're gonna rock the world  
Rock the world  
We're gonna dance all night  
Dance all night  
We're gonna rock the world  
Rock the world  
We're gonna make it right  
We're gonna make it right

Every boy and girl  
Boy and girl  
Every where you turn  
Where you turn  
We're gonna show you how  
We're gonna show you how  
How to rock the, rock the world

When you smile  
The rain won't come your way  
We'll make it a brighter day  
It's time to move along  
Look and see  
The good inside of me  
You can be what you wanna be  
It's time to move along

We're gonna rock the world  
Rock the world  
We're gonna dance all night  
Dance all night  
We're gonna rock the world  
Rock the world  
We're gonna make it right

We're gonna make it right

Every boy and girl  
Boy and girl  
Every where you turn  
Where you turn  
We're gonna show you how  
We're gonna show you how  
How to rock the, rock the world

So if you hear  
Our voices on the radio  
(On the radio)  
Maybe you'll wonder  
What we're gonna do  
(What we're gonna do)

We're gonna rock the world

We're gonna rock the world  
Rock the world  
We're gonna dance all night  
Dance all night  
We're gonna rock the world  
Rock the world  
We're gonna make it right  
We're gonna make it right

Every boy and girl  
Boy and girl  
Every where you turn  
Where you turn  
We're gonna show you how  
We're gonna show you how  
How to rock the, rock the world

We're gonna rock the world!
