What's your name, baby?
What's your name, babe?
(Heeey, yeah)
What's your name, baby?
What's your name, babe?

Cruising the land
Looking for somebody
Not a whimp with a tan
Not a boy thinking he's a man
True to the scale
I need a real Alfa-male

(Hey!)

Like a cat in the deep
Of the night
Moving round and round
And I'm in command

(Wow!)

Hey! I need another lover
Right here, right now
What's your name, baby?
What's your name, babe?
Hey! Let's meet under the cover
I show you how
What's your name, baby?
What's your name, babe?

(Hey! Hey!)

There's no excuse for
Sweet romancing baby
I blow your fuse
When you're out
Well then so am I, all I can do
Praying the right one is you

(Hey!)

Like a cat in the deep
Of the night
Moving round and round
And I'm in command

(Wow!)

Hey, I need another lover
Right here, right now
What's your name, baby?
What's your name, babe?
Hey, let's meet under the cover
I show you how
What's your name, baby?
What's your name, babe?

(Hey!)

Oohooh...
I try to see if this is right
With the moonlight kiss
A snap of my fingers
I'm back in command

(Wow!)

Come on! Come on!

Hey, I need another lover
Right here, right now
What's your name, baby?
What's your name, babe?
Hey, let's meet under the cover
I show you how
What's your name, baby?
What's your name, babe?

Hey, I need another lover
Right here, right now
What's your name, baby?
What's your name, babe?
Hey, let's meet under the cover
I show you how
What's your name, baby?
What's your name, babe?

What's your name, baby?
What's your name, baby?
