Warm and cold  
You grab me down, you lift me with your magic (magic,  
magic)  
New and old  
I know your way but I don't understand it (stand it,  
stand it)  
Steel and stone  
A thousand years of history and future  
Gold and cone  
A lazy beam's creating this illusion

I can leave any day  
But you're always gonna stay on my mind

Tokyo  
- You've got the rhythm in you  
High and low  
- She's gonna do it to you  
Tokyo  
- You've got the rhythm in you  
High and low  
- She's gonna do it to you

Sleepless nights  
My eyes are open but I must be dreaming  
You and I  
We play it cool but underneath we're steaming

You can run, you can hide  
But this roller-coaster ride never stops

Tokyo  
- You've got the rhythm in you  
High and low  
- She's gonna do it to you  
Tokyo  
- You've got the rhythm in you  
High and low  
- She's gonna do it to you

She's gonna do it to you  
She's gonna do it to you

Ohh...

I can leave any day  
But you're always gonna stay on my mind  
And you can run you can hide  
But this roller-coaster ride never stops

Tokyo  
- You've got the rhythm in you  
High and low  
- She's gonna do it to you  
Tokyo  
- You've got the rhythm in you  
High and low  
- She's gonna do it to you

Tokyo  
- You've got the rhythm in you  
High and low  
- She's gonna do it to you  
Tokyo  
- You've got the rhythm in you  
High and low  
- She's gonna do it to you

Ohh...
