Touch me
Touch me
Touch me now

Touch me, touch me
I wanna feel your body
Your heartbeat next to mine
Touch me, touch me now
Touch me, touch me now

Full moon in the city
And the night was young
I was hungry for love
I was hungry for fun
I was hunting you down
And I was the bait
When I saw you there
I didn't need to hesitate

This is the night
This is the night
This is the time
We've got to get it right
(This is the night)

Touch me, touch me
I wanna feel your body
Your heartbeat next to mine
(This is the night)
Touch me, touch me now
Touch me, touch me now

Hot and cold emotion
Confusing my brain
I could not decide between
Pleasure and pain
Like a tramp in the night
I was begging for you
To treat my body
Like you wanted to

This is the night

This is the night
This is the time
We've got to get it right
(This is the night)

Touch me, touch me
I wanna feel your body
Your heartbeat next to mine
(This is the night)
Touch me, touch me now
Touch me, touch me now

Touch me, touch me
I wanna feel your body
Your heartbeat next to mine
(This is the night)
Touch me, touch me now
Touch me, touch me now

Touch me, touch me now
Touch me, touch me now, yeah
Touch me, touch me now, mm
Touch me, touch me now, yeah

(This is the night)
Touch me, touch me
I wanna feel your body
Your heartbeat next to mine
(This is the night)

Cause I want your body
All the time, yeah

Touch me, touch me
I wanna feel your body
Your heartbeat next to mine
(This is the night)
Touch me, touch me now
Touch me, touch me now

Touch me, touch me now, mm
Touch me, touch me now
Touch me, touch me now, eeh
Touch me, touch me now
Touch me, touch me now
Touch me, touch me now
