This love is supernatural
This world is unpredictable

Something really strange
Has got control of my dreams
(Yeah, yeah, yeah)
I keep on howling at the moon
What does that say about me
Don't you notice that you
Never ever see me by day
(Yeah, yeah, yeah)
There's no need to be afraid
Cause babe ya made me that way

Now I can walk right, eat right
Constantly hypnotised
Turn my life upside down, inside out
What you do to me now
Sometimes I scream
And I shout but you know
I could never be normal

This love is supernatural
You got me going crazy
This world is unpredictable
I'm loosing my mind, baby
You know you're so sexual
(Come on! Come on!)
We are supernatural

There's just something in the way
You move that wants to make me
(Yeah, yeah, yeah)
Make you feel the way
That you make me feel
My friends keep telling me
I'm crazy and I'm changing inside
(Yeah, yeah, yeah)
I hang around with the freaks
And fools just to make sense of my life

Now I can walk right, eat right

Constantly hypnotised
Turn my life upside down, inside out
What you do to me now
Sometimes I scream
And I shout but you know
I could never be normal

This love is supernatural
You got me going crazy
This world is unpredictable
I'm losing my mind, baby
You know you're so sexual
(Come on! Come on!)
We are supernatural

You gotta help me, man
I'm losing my mind
Somebody help me, please
Aaaaaaaaahhhhhh

(Hahahaha, come on now)

This love is supernatural
You got me going crazy
This world is unpredictable
I'm losing my mind, baby
You know you're so sexual
(Come on! Come on!)
We are supernatural

This love is supernatural
You got me going crazy
This world is unpredictable
I'm losing my mind, baby
You know you're so sexual
(Come on! Come on!)
We are supernatural

We are supernatural
