I know that we just met
I don't know what I expect
But Katy I just want you to know that
I think we could be more than perfect

I know that this is different
Something that you're not used to
But It's not everyday for me that I meet a girl as
gorgeous as you

And I swear that I'll mean everything that I'll say tonight
I'll mean every word that I sing to you
And I'll do my best to make you mine
If that's something you'd be into

I know it must be hard
To understand where this came from
For me to write a love song for a girl I barely know

But if you could just hear me out
If my message could get through
I hoped that maybe you would see I'd do anything for
you

And I swear I'll mean what I say tonight
I'll mean every song that I'll write for you
And I'll do my best to make you mine
