Look at all those things you do  
Just to make that boy look at you  
With your high-heeled boots and your tennis shoes  
Baby you're pathetic

And you think he doesn't know  
Your infatuation only grows  
And he gets to treat you like a ghost  
My god you're pathetic

And it really gets to me the way you hold that smile  
You're the first on the hitlist but all you can think is  
You're gonna walk down that aisle

(Here comes the good part)

Girl I'm sorry, that you're gonna be lonely  
But you don't even know me  
(But you don't even know me)

Yeah I'm sorry, you're gonna be lonely  
But you don't even know me  
Yeah

Girl I'm sorry, that you're gonna be lonely  
But you don't even know me  
(But you don't even know me)

Yeah I'm sorry, you're gonna be lonely  
But you don't even know me  
Yeah

(But you don't even know me, yeah)

All the stupid things you say  
Yet you always seem to get your way  
Think it's cute the way you love to play  
Just stop it's pathetic

You really think we haven't figured out  
Attention's what you're all about  
(It's cute, but honestly)

I'm not sympathetic

And it really gets to me, the way you hold that smile  
You're the first on the hitlist but all you can think is  
You're gonna walk down that aisle

Girl I'm sorry, that you're gonna be lonely  
But you don't even know me  
(But you don't even know me)

Yeah I'm sorry, you're gonna be lonely  
But you don't even know me  
Yeah

Girl I'm sorry, that you're gonna be lonely  
But you don't even know me, yeah

Yeah I'm sorry, you're gonna be lonely  
But you don't even know me  
Yeah

Girl I'm sorry  
I'm so sorry  
(But you don't even know me, yeah)

Yeah I'm sorry  
I'm so sorry

But you don't even know me, yeah
