Come to me, I'm your force, come to me, I'm your faith.
Save your life, save your dreams, save your body, save
Your soul.

Come to me, I'm your ghost, come to me, I'm your
spell.
Take my life, take my dreams, take my body, take my
soul.

Come to me, I'm your light, come to me, I'm your
shade.
Spheres and cubes, mental codes, immoral doll,

Algorithms.

Come to me, I'm your ghost, come to me, I'm your
spell.
Take my life, take my dreams, take my body, take my
soul.

Come to me, I'm your pix, come to me, or kill me!
Stop and go, cut and paste, storybook, endless scope.

Come in my world, with your sins, with your shades.
