The world ends without a tragedy  
Time is melting into history

The sky is falling  
Voices crying out in desperation here them calling  
Everybody, save yourself

The world plays its angered symphony  
Lost inside eternal mystery

The sky is falling  
Voices crying out in desperation here them calling  
Everybody, save yourself

Doesn't matter what you say  
Doesn't matter what you do  
We all end up this way, there's one thing left to save  
you

The sky is falling  
Voices crying out in desperation here them calling  
Everybody, save yourself

The sky is falling  
Voices crying out in desperation hear them calling  
You can never save yourself

Save yourself, save yourself, save yourself, save  
yourself  
Save yourself, save yourself, save yourself, save  
yourself
