I tip toe, hush, hush  
Pitter pat goes my heart  
Your beauty, your innocence  
Joy is found with every kiss

My sweet, my lovely  
My sweet, my lovely  
So sweet, so lovely  
Close your eyes, close your eyes  
Close your eyes, close your eyes

I stare into the bluest eyes  
Time stands still in your smile  
You aren't there, now you're here  
I dreamed of you but I never knew

How sweet and lovely  
My sweet, my lovely  
So sweet, so lovely  
Close your eyes, close your eyes  
Close your eyes, close your eyes

My sweet, my lovely  
My sweet, my lovely  
So sweet, so lovely  
Close your eyes, close your eyes  
Close your eyes, close your eyes
