### "One Drop"

I need you  
And you need me  
Left alone  
We will never be  
Who we could be

So take my hand  
And don't forget  
That we can do anything  
Together

Chorus:  
Oh  
Just one drop  
Of your Love  
A single ray of sun  
Just one thing  
To change the world  
It's just you and me  
Starting with one dream  
And giving it all we've got  
Only takes one drop

Come with me now  
Look and see how  
There's an ocean  
Overflowing with our hopes  
So  
Let's jump in and take a swim,  
It's you and me forever

Chorus

I need you and you need me  
We can do anything together

Chorus
