On the midnight road
Thin air painfully cold
Landscape dark as murder
Save for the stars
On all sides
And they're reflecting in our eyes
Nowhere to hide
Wide open sky staring down at me

I saw life, I saw death
I saw it all that night
In the Arizona sky, oh oh
I saw life, I saw death
I saw it all that night
In the Arizona sky

Eighteen wheels
Barreling past
Blowing the grass this way and that
Once everything settles down again
I wonder when
They ever stop
To look around and see that
We're all at the top of the world

I saw life, I saw death
I saw it all that night
In the Arizona sky, oh oh
I saw life, I saw death
I saw it all that night
In the Arizona sky, in the sky

And as I stood there I just knew it
Everything was right
I was exactly as I should be
In the dark that night
The stars were shining to remind me
This is right where I belong

Lead me to where
Where I need to be
Lead me as far

As the eye can see

Lead me to where
Where I need to be
Lead me as far...

I saw life, I saw death
I saw it all that night
In the Arizona sky, oh oh
I saw life, I saw death
I saw it all that night
In the Arizona sky, in the sky

I saw love, I saw hate
I saw everything that night
In the Arizona sky, oh oh
I saw you, I saw them
I saw myself that night
In the Arizona sky, in the sky, oh oh
