Now, when you hold me in your arms at night I

Can't explain what it is you do to me and
Now I realise that this special love we share...

Our love, it's really just destiny

Hold me close don't let me go now it

Seems to be illusion
Is this just a dream or is this love for real--?

Once, I felt like I could never smile, but then
I met you, and now I know, that for all my life

You are the one that I've been waiting for...

And, now its time

For us to be together until

The end of all time, so

Hold me close, and then

Now, when you hold me in your arms at night I
Can't explain what it is you do to me and
Now I realise that this special love we share...

Our love, its really just meant to be

Hold me close don't let me go now it

Seems to be illusion
Is this just a dream or is this love for real--?
