[Intro]

My nigga I started my way to the fullest and I just
wanna say
Let's do it
All of you with me no?
(Haha) fuck

[Hook: Dim Lewko]

In my new air (x2)
I give you so much (x2)
In my new air (x2)
I give you so much

[Verse 1: Dim Lewko]

I flew in the real side of my life tried to swim into the
dark wild
Baby I've never changed find a deep sea and dive
Know something is broken I used to say mankind
I had problems like everybody I should analyze
But it's mathematics and we know I can't
mathematize
Joking on my past when I speak with someone
I'm the type of man that deserves some gaize (x2)
Dinner with a miracle I could become snagged
The full lights are down the whole time
They ride or die live and lie the whole time
Passion of the half caste floating with riven
Yucky game money game (x2)
Some niggas don't like
I'm faded right now so I don't care
And I get it get it play it play it I'm all day with it
driving in it (x2)
Feeling myself it's the first time I really chill

[Hook]

[Verse 2: Dim Lewko]

My court room full of workers (wo oh) I've learned to

be patient (wo oh x2)
The negatives could make better postures
They told me to dress me with their own sauce (no no
x2)
I usually revise my own thought so pause (x2)
Theses niggas so fiasco shots come (x2)
I live day by day but for me it's tomorrow
Slave to my job dim out but everything dim out around
(x2)
My life apart this
Do these people really know me?
Hear the least boring I wish you love it
All my wrong I fix it the chill life you chill with
These niggas their time highdreamys dreamtime
No deadtime you hear it now it's bangtime (x2)
My struggle my issues time to make like everyone does
Dim lewko we good (x6)

[Outro]

These niggas their time highdreamys dreamtime
No deadtime you hear it now it's bangtime
My struggle my issues time to make like everyone does
