"I Have To Say Goodbye"

Teringatku akan dirimu
Semua itu sirna
Yang tersisa cintaku padamu

Takkan lagi aku rasakan indahnya pelukan
You alwas try to give your smile for me

I will never gonna stop to loving you
I will always follow you
And always follow you
Baby baby
I'm gonna miss you

I will never gonna stop to loving you
Cause you'll know it just for you
And always loving you
Baby baby
I'm never gonna stop loving you

Mencoba tuk memutar waktu
Kembali padanya
To say goodbye
Is hardest thing for me

You always be mine
Even I have to say goodbye
You keep inside, you keep for me
I just want you to realize
