Verse 1

- Some things are left unseen
- X-Ray glasses are what I need
- To see what hides inside
- Just to find, all your lies
- It'll be easy on me
- To know who you are before
- You crush the heart in me
- Or just to see if you're a whore

Pre-Chorus

- If a thing as small as late-
- Ness evokes our worst thoughts
- Sometimes I wish maybe...

Chorus

- If only our eyes
- Would look deeper inside, then we'd see
- Better parts of someone/something
- Then we'd know just how to defend from jealousy

Verse 2

- When you say you'll be on time, you never wind up here on time
- When you say everything's fine, that's a lie, that's a lie
- I'm desperately sitting here waiting for you to show, for you to show
- I'm constantly reminding/thinking of where you are, or why you're not here

Bridge

- (Before I go, I want you to know)
- I just think it isn't fair
- Wake me up from this nightmare
- Let me know that it's a dream
- Will someone just please pinch me?
- To prove that I'm not asleep

End Riff

- When you say you'll be on time, you never wind up here on time
- When you say everything's fine, that's a lie
- When you said you'd be all mine, you never wound up here all mine
- When you said you'd be my life
- That's a lie (if only our eyes wandered much deeper inside)

-Thats a lie (better parts of someone, better parts of something)
-I just think it isn't fair
-Wake me up from this nightmare
-Will someone just please pinch me?
-To prove that I'm not asleep
-You mean everything, everything to me.
