Lay your life on mine and I'll carry you through  
Make good use of time and I'll stand with you  
Cause I've got all my life to love you and so do you

So there's no home for doubt  
If you're scared we'll work it out  
And the lives that we share could be anywhere

For as long as you're mine we can stand the test of  
time  
For the cost is too high not to love

Put your cares on mine and we'll carry them through  
Walk the firing lines with the power of two  
Cause I've got all my life to save you and so do you

So there's no home for doubt  
If you're scared we'll work it out  
And the lives that we share could be anywhere

For as long as you're mine we can stand the test of  
time  
For the cost is too high not to love

So there's no home for doubt  
If you're scared we'll work it out  
And the lives that we share could be anywhere

For as long as you're mine we can stand the test of  
time  
For the cost is too high not to love  
The cost is too high not to love
