Camouflage  
What is this force around me  
Just like a tractor beam that  
Is always pulling me down... and when  
Ever I get the chance to  
To spill my guts about you  
It tries to tape up my mouth

What good am I  
If I just keep you quiet  
What good am I  
If I don't speak, 'cause

CHORUS:  
I don't wanna be camouflage  
What I'm not  
'Cause what I got invades the world  
I don't wanna be in a box  
All I want  
Is just to stop being  
Camouflage

I'm sick of trying to blend  
Thinking that I should fit in  
Like I am somebody else... why do  
I go against what I say  
I come across like a fake  
And keep you all to myself

It's not that I  
Wanna shove it on somebody  
It's just that I  
That I can't hide

.:Repeat Chorus:.

I can't hide

.:Repeat Chorus:.
