Under the silver stars

Anywhere you are

Near or far you are close to me

When you don't understand

And when you think nobody can

I'll be the friend and the hope

You need

[chorus:]

Let me be the one

Leading you through the night

Sharing the smiles and tears you cry

Let me be the one

Lovin' you when you're weak

For all of the strength you need

You can come to me

(when you're down and you feel so lonely...turn
around...you can come to me...when you're down

You know I will be the only...come to me)

I will be by your side

When you wanna break down

And cry

I'll make you promises you

Can believe

For the kind of love you can trust

For escape from the hopelessness

Don't you know that you can

Come to me

[repeat chorus]

And I believe beyond, the setting

Of the sun

At the end of the day

My love stays for you...my love stays

[repeat chorus]
