### "Start To Fly"

Visit "[Start To Fly](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You've had your taste of all that's sweet

Now you're through and what does it mean

You've sought the truth, found a lie

You've given up but it doesn't make it right

You want to go, I know you wanna leave

Ya' gotta go, farther than you see

[chorus:]

If you just look past your scars

You will see it's not that far

Don't close your mind

Let God inside

Begin to breathe, start to fly

Start to fly

Wake from your sleep,

Start your dream

It's okay to believe what you don't see

Give it away, your heart

Won't break

This is a chance you're gonna have to take

You want to go, I know you wanna leave

Ya' gotta go, farther than you see

[repeat chorus]

Just close your eyes, hold on tight

You don't have to be afraid

He is with you all the time

You'll be free, full of peace

Everything that you need,

It is right there can't you see

[breakdown]

[repeat chorus]
