So what is it about me?  
Hey, what am I supposed to say?  
You could make my day  
Or you could make a picture of  
The times we had  
You might get sad  
You might get rich someday  
If you do, I might get mad  
Remembering that month I spent  
You said you were my only friend  
So now be a dear and leave me alone  
Don't come back or call up my phone  
And if there is somewhere that you need to be  
Don't make it here with me

And don't try to clean the carpet stain  
You don't have to close that creaky gate  
You'll get along just fine  
You might even make a song  
Or find someone  
To hang those troubles on  
On and on in my memory  
Hey, wait, you're fading out  
About the way you faded in  
Remind me of your name again  
And then be a dear and leave me alone  
And don't come back or tie up my phone  
And if there is somewhere that you need to be  
Don't worry about me

Remind me of your name again  
And then be a dear and leave me alone  
Don't come back or call up my phone  
If there is somewhere that you need to be  
Try not being here with me  
I wish that I knew you when I was  
A patient sort of guy, baby  
You might be someone I used to know
